

## Little Train

Cody Jinks

Little train, little train, just a' rollin' down the track  
Little train, little train, ain't even lookin' back  
Little train, little train, you're carryin' my heart away  
Little train I'm singin' you a mournful song  
With my hands in the air 'till the black smokes gone  
Little train I won't be seein' you too soon

I hear you're headed out west while the weather's been bad  
Watched the floods in the canyon, lift the mud on the track  
Little train don't you know it's dangerous out there  
'Till you're shotgun rider there's a beef on the loose  
Why'd you put an extra gun on the old caboose  
Little train make sure my baby's safe and sound  
Roll on little engine  
Roll on down the line  
You're carryin' my baby away  
And I'll cry to the forewinds  
Until your safe return  
Bring me back my baby to stay  
Won't you make her stay

When her business is done won't you call her on back  
Won't you let a long whistle out your ol' smokestack  
Little train I'm afraid that city's caught her eye  
Little train, little train, don't you go too fast  
Don't you go too slow, just keep her on track  
Little train won't you flash your headlamps when you're here  
Roll on little engine  
Roll on back down the line  
You've carried my baby away  
I've cried out to the forewinds  
Upon your safe return  
Won't you bring back my baby to stay  
No never take her away

Little train, little train, just a' rollin' down the track  
Little train, little train, ain't even lookin' back  
Little train, little train, you're carryin' my heart away  
Little train I'm singin' you a mournful song  
With my hands in the air 'till the black smokes gone  
Little train I won't be seein' you too soon
