

Monster

Cody Jinks

Monsters are real, but they don't live under our beds
It ain't no fairytale when they rear their ugly heads
Mirrors don't lie, I hope I don't see any soon
Don't need remindin' I'm the only one in the room

I know he likes to show up when I think he's finally gone
Preyin' on my weakness like before
I know that I can't fight or face that monster all alone
He ain't welcome, he don't live here anymore

I pray he's done with me, but I don't hold my breath
If he needs my soul to feed, then I'll starve him to death

I know he likes to show up when I think he's finally gone
Preyin' on my weakness like before
I know that I can't fight or face that monster all alone
He ain't welcome, he don't live here anymore

I know he likes to show up when I think he's finally gone
Preyin' on my weakness like before
I know that I can't fight or face that monster all alone
He ain't welcome, he don't live here anymore

Anymore
He don't live here anymore
Monsters are real
