

## Never Alone Always Lonely

Cody Jinks

Backside of thirty came fast, but what's more  
I can't remember younger days like before and it's a shame  
I've done more runnin' than most any age  
Whole lot of prayin' on the backside of a stage, scared to deat  
h  
Wondering what's next

And I take the long way around every time  
As fast as I can through the comfort of night and it's a fight  
People who love me they suffer the most  
See me on TV and all they see's a ghost of someone they knew  
They're tellin' the truth

Never Alone Always Lonely  
Easy to find, seldom seen  
Never Alone Always Lonely  
On a fast train  
Through a slow moving dream

Never Alone Always Lonely  
Easy to find seldom seen  
Never Alone Always Lonely  
On a fast train  
Through a slow moving dream  
Never Alone Always Lonely  
Easy to find seldom seen  
On a fast train  
Through a slow moving dream
