

One Good Decision

Cody Jinks

I've got one good decision to make tonight
And I'll have every chance to keep it right
I've got a good woman at home
So I'll be leaving here alone
Well I've got one good decision to make tonight

I can smoke and I can drink
Till I can hardly speak or think
I can stumble drunk my way across the floor
I can dance and act a fool upon that bar or on that stool
Choose to do damn near anything this side of those swinging doors

But I've got one good decision to make tonight
And I'll have every chance to keep it right
I've got a good woman at home
So I'll be leaving here alone
Well I've got one good decision to make tonight

You can try to catch my eye
Wonder if I'm so inclined
To allow my better judgment to go astray
But now wonderings all you'll do
Cause I've got way too much to lose
One night of so called heaven
Ain't worth the hell I'd pay

But I've got one good decision to make tonight
And I'll have every chance to keep it right
I've got a good woman at home
So I'll be leaving here alone
Well I've got one good decision to make tonight
