

# Rock and Roll

Cody Jinks

I don't wanna rock and roll no more  
At least not the way I did, back before  
That life tried to kill me  
To tell the truth it never thrilled me  
I don't wanna rock and roll no more  
I don't wanna rock and roll

I don't need that whiskey anymore  
Least not the way I did back before  
That stuff tried to kill me  
To tell the truth it never thrilled me  
I don't want that whiskey anymore  
I don't need that whiskey

I don't mean to disappoint you  
But there's chance I'm going to  
Some people only like me when I'm stoned  
Yeah the crowd was a whole lot bigger  
But I just can't remember  
I don't need that whiskey anymore  
I don't need that whiskey

I don't wanna miss you anymore  
I just want you right here in my arms  
This ol' life still trying to kill me  
You're the only thing that's filled me  
I don't wanna miss you anymore  
I don't wanna miss you

And I don't mean to disappoint you  
But you know I'm goin' to  
Sometimes, I'd lay it all down and come back home  
Yeah, the crowd was a whole lot bigger  
When you were right there in the center  
I don't wanna miss you anymore  
I don't need that whiskey anymore  
I don't wanna rock and roll
