

The Same

Cody Jinks

I heard "Good to see - those lights were sure bright tonight"
That bittersweet voice took me back, another time
She said, "After all this while, it's good to see you doin' fine"

Well, that's a funny thing to hear, after the last time
I recall the choice you made, the words you chose back then
It killed me for a long, long time, were we ever friends?
I said, "You came here to see if time had rearranged
The same old game, I'm still the same"

Same old bar, same guitars, same old stars
That light my dance
It's gettin' better to not feel ruined
But you know I do anyway
I really don't know what you're doing here
What you want, or why you came
It's gettin' late now and I gotta go
Since you asked, I'm still the same
I'm still the same

I really don't know what you're doing here
What you want, or why you came
It's gettin' late now and I gotta go
Since you asked, I'm still the same
I'm still the same
I'm still the same
