

# Think Like You Think

Cody Jinks

The Good Book holds reasons I believe the way I do  
All I needed to know I was taught in Sunday school  
But I live like those rules were for everyone but me  
With selfish disregard for how it hurt my family

As I staggered down the hall to our bed  
She helped steady me and said:

"How can you think like you think  
Turn around and drink like you drink?  
You can barely stand up when you kneel down to pray  
How can you tell our children to be strong  
And fight temptation in a world gone wrong?  
How can you think like you think and drink like you drink?"

Bless that girl that looks out for me  
With the faith and the love of a saint  
Give me the strength to make sure that she  
Never again has to say

"How can you think like you think  
Turn around and drink like you drink?  
You can barely stand up but you kneel down to pray  
How can you tell our children to be strong  
And fight temptation in a world gone wrong?  
How can you think like you think and drink like you drink?"
