

## Wake up Becki

Cody Jinks

Wake up Beckie, I've got something to say  
Listen to me, let's try this one more day  
I know it's late now, but you know I just can't sleep  
Wake up Becki, won't you talk with me

Wake up Becki oh now listen to me please  
Understand now, I'm down on my knees  
You gotta believe me when I say my love is true  
Wake up Becki, all I want is you

I need to hear your voice, you know I'm all alone  
And this is what I'd say to you if you'd pick up that phone  
You must be fast asleep not thinking about me or you're already  
gone

Wake up Beckie, Beckie I'm almost home

Wake up Beckie oh I know it's been too long  
Since I've held you, and I know you've been strong  
Don't you worry, I may be gone for a week or two  
Wake up Beckie, I'm coming home to you

I need to hear your voice, you know I'm all alone  
And this is what I'd say to you if you'd pick up that phone  
You must be fast asleep not thinking about me or you're already  
gone

Wake up Beckie, Beckie I'm almost home
