

## What Else is New

Cody Jinks

California's still on fire  
And it don't rain no more in Texas  
There's a few less ice caps way up north of here  
Mother Russia stays pissed-off  
Yeah, she's got some big old bombs  
Still throwin' around her weight after all these years

And the price of gasoline is enough to make you scream  
Yeah, the cost of livin' goes up and the pay goes down  
I don't care what's right or left, y'all  
I'm just out here with the rest  
In the middle class, that still means broke to me

What else is new? I'm tellin' you  
I'm tellin' what the blue collar man is goin' thru  
We don't let no bad news hang around  
It's the same old situation  
All the problems facin' our great nation  
So to hell to all those bringin' that bad news down

And the politicians will never know  
How to let their egos go  
No, they could not give two damns 'bout you and me  
Yeah, but they still got their pensions  
With some tactics they'd rather not mention  
That's the price we pay for them livin' free

What else is new? I'm tellin' you  
All the trouble a blue collar man is goin' thru  
We don't let no bad news hang around  
It's the same old situation  
All the problems facin' our great nation  
So to hell to all those bringin' that bad news down

What else is new? I'm tellin' you  
All the trouble a blue collar man is goin thru  
We don't let no bad news hang around  
It's the same old situation  
All the problems facin' our great nation  
So to hell to all those bringin' that bad news down

All to hell with all those bringin' that bad news down  
All to hell with all those bringin' that bad news ...
