

# (I Wouldn't Go There) If I Were You

Cody Johnson

Heart, hey we had this talk  
This is where we run, don't walk  
Away from her as fast as we can move  
Don't you remember what she did  
The last time you let her in  
Did you forget the pain she put us through?  
I wouldn't go there if I were you

Heart, stick to beating, stop all this feeling  
Ain't you tired of being her fool?  
When her hips start swaying my lips start saying  
Don't you know you gotta get on riding too  
I wouldn't go there if I were you

Try not to think too much about the fire that's in her touch  
How her kiss can make you come unglued  
That sweet look in her eyes  
It's all part of her disguise  
That's the devil wearing that perfume  
I wouldn't go there if I were you

Heart, stick to beating, stop all this feeling  
Ain't you tired of being her fool?  
When her hips start swaying my lips start saying  
Don't you know you gotta get on riding too  
I wouldn't go there if I were you
