Ay na na na na na [x4]

I always thought that love at first sight was something just make believe  
Till the day you walked by and for the first time, I couldn't find the words  
to speak

Said I want to get know ya (yeah, yeah),

I'll do anything, to get a little closer

And she's looking like

Hey boy come over

And if I get her, swear I'll never let her go oh no oh, ho ho

Oohhh, and we can't get off the floor, next thing you know she coming home

To me, my mama and I can't believe it all started with me saying

Ay na na na na na girl you're the one I want

Ay na na na na na

And she was like, hey boy I just can't take my eyes off ya

Ay na na na na na think I love you

They can say whatever they like, thinking will never last

But every day we moving on up, yeah we never looking back (looking back)

See I had to get to know ya (yeah, yeah)

I did everything, to get a little closer (yeah, yeah)

Now we riding on this love rollercoaster (yeh, yeah)

And I don't even wanna get up, I wanna keep rolling

Oooh, we went from talking on the phone, now everyday I'm rushing home

Is she my dream girl, can't believe it all started with me saying

Ay na na na na na girl you're one I want

Ay na na na na na

And she was like, hey boy I just can't take my eyes off ya

Ay na na na na na think I love you

Who knew she's my future, better everyday

Who knew that she wanna be my everything

It's over shes all I

Ever gonna need and more

I can't believe it all started with

Who knew he's my future, better everyday

Who knew that he wanna be my everything

It's over hes all I

Ever gonna need and more

I can't believe it all started with

Ay na na na na na girl you're one I want

Ay na na na na na

And she was like, hey boy I just can't take my eyes off ya

Ay na na na na na think I love you

Ay na na na na na [x4]

And I think I love ya.
