

Calm

Cody Simpson

Left the party early tonight
Ain't there nothing for me here
Saw you on the corner outside, sparkling eyes
I said there's something for me here

It's a night to get to know you babe
But first let's get out of the rain
Felt like you could take the storm out of my brain
It's just the energy you gave

Just so you know
Everywhere you go
Streets all turn to gold
Got no choice
But to follow you
Everything you do
Sky was grey
Took my pain away
Turn my night to day
A-okay
Now I'm free to say

You make me calm
When you're underneath my arm
Cruising down a boulevard that's lined with palms
Oh girl you make me calm

You make me cool
Like I jumped into the pool
It's the way you make me feel like a fool in love
Oh girl you make me cool

You so easy my dear
You're a breath of fresh air
Taught me how to let me go
How is one so mellow?
If you knew what I been through
You would feel this good too
Out into the open waves

You make me calm
When you're underneath my arm
Cruising down a boulevard that's lined with palms
Oh girl you make me calm

You make me cool
Like I jumped into the pool
It's the way you make me feel like a fool in love
Oh girl you make me cool

You're like the sun rising
You set the bar high and
I'm in the sky flying
Baby you make me calm

You're like a cool breeze and
I want you all season
You give me my reason
Baby you make me calm

Left the party early tonight
Ain't there nothing for me here
Saw you on the corner outside
Sparkling eyes
I said there's something for me here
