

captain's dance with the devil

Cody Simpson

This young sailor's gonna drown
This old ship is sinking down
And his chip's all black and blue
And he's murdered all his crew
This young sailor's going to drown

This young man is goin' to die
Cursed as soon as he saw the sky
And the clouds are black as Hell
And as far as we can tell
This young man is goin' to die

He's off to do the Devil's dance
Waitin' deep in hand with the man
He's off to do the Devil's deed
And he'll never see the shoreline again
And he'll never see the shoreline again

The youngest captain the world's ever seen
Striking a lightning boat dream
Only seventeen, living far beyond his means
The youngest captain the world's ever seen

He's off to do the Devil's work
But to him it's a favor for a friend
He's off to learn the Devil's craft
But to him it's the only freedom for a man
Death is the only freedom for a man
Death is the only freedom for a man
