

Dive

Cody Simpson

I'll hold my breath, I wanna see below the surface
'Cause I want your love and I don't mind asking
How deep's your love? 'Cause baby I'm gonna dive in
Right into you

Sometimes I feel like I have done this all before
Sometimes I feel like I have done this all before

Let me go under
I wonder what I'll find
I wanna stand on the edge and hold my breath and dive
Let me go under
I wanna take my time
I wanna stand on the edge and hold my breath and dive
Right into you

Some people say that you're better off staying dry but
I'd risk it all and I don't mind trying
So take me down, down into your deepest waters
'Cause it's paradise found, now that I have you

Sometimes I feel like I have done this all before
And I'm waiting on the day when you'll be standing on my shore

Let me go under
I wonder what I'll find
I wanna stand on the edge and hold my breath and dive
Let me go under
I wanna take my time
I wanna stand on the edge and hold my breath and dive
Right into you
