

Guitar Cry

Cody Simpson

Ohh yeah, ohh yeah, ohh yeah
Out on the towns (town)
Me and all of my friends
Sign up g-town I couldn't be any cooler
Destination no where (no where)
Feel like a billionaire

We want you have to come, and ruin my parade
She looks so happy not to long ago
It use to be me that made her shine like gold
Now obey the crowd and she'll never know
How much your missing her everyday
When I see you walk by, with that other guy

I hide my tears and I let my guitar cry
I just wanna shout, gotta let it all out
She played my heart strings like a guitar cry

This is for everyone whose heart is breakin
Turn it up so loud you can't take it
Everyone whose heart is breakin
Here's my last song for your goodbye, guitar cry

So cute I had to flirt, her MJ t-shirt
Moon walked into my life, couldn't be any smoother
We were the perfect pair, like I'ma need your hair
So long for getting back together again

Cause she looks so happy not to long ago
It use to be me that made her shine like gold
Now obey the crowd that she'll never know
How much your missing her everyday
When I see you walk by, with that other guy

I hide my tears and I let my guitar cry
I just wanna shout gotta let it all out
She played my heart strings like a guitar cry
This is for everyone who's heart is breakin
Turn it up so loud you can't take it
Everyone who's heart is breakin
Here's my last song for your goodbye, guitar cry

All of those countless letters and love songs
We're down to the last one
No way, I won't let her see all of the pain in my eyes

When I see you walk by, with that other guy
I hide my tears and I let my guitar cry
I just wanna shout gotta let it all out
She played my heart strings like a guitar cry

This is for everyone whose heart is breakin
Turn it up so loud you can't take it
Everyone whose heart is breakin
Here's my last song for your goodbye, guitar cry
