

High Forever

Cody Simpson

I'm so high
Can barely see with my eyes
I see your face in my mind
And blurred out city lights (Ooh)

We've been out all evening by now
Flying through the streets all over town
Only trouble's staying off the ground, the ground

Feel like I just took something
Feel like I just smoked something
Let's do it all over again
I'm really trying to stay up high, day and night
Staying high
Staying high

What's good with the time and the money, it's smoke in your face
You feel invincible when you're in this place
Feeling unbreakable til part of it breaks
Til part of it breaks (Ooh)

Reach the summit then you go back down
It's like a cycle, I never get out
Only problem's staying off the ground, the ground, the ground

Feel like I just took something
Feel like I just smoked something
Let's do it all over again
I'm really trying to stay up high, day and night

Feel like I just took something
Feel like I just smoked something
Let's do it all over again
I'm really trying to stay up high, day and night

Staying high
Staying high (Ooh)

Feel like I just took something
Feel like I just smoked something
Let's do it all over again
I'm really trying to stay up high
Forever high
