

# Into The Flow

Cody Simpson

Say yeah  
Say yeah

Well she got eyes of the bluest sea  
But it ain't a thing 'cause she doesn't see  
The simpler things that take where you wanna be  
Where the palm trees grow and the rents are low  
And the tide gets high and so can we  
'Cause I wanna see you on a trip with me  
Come on

There is no wonder  
It feels like Havana  
It's hot like the summer  
Drink cool like December  
Singing till the night turn day  
I am the martyr  
I wanna go under  
Go under the water  
Into my nirvana  
And now I see you coming my way

Baby, let me show you where we're going  
'Cause we're going to the floor  
Take you on a ride into the sky  
Where we can dive into the flow  
Come on

So we live fast [?]  
With rhythm for the child that's dancing  
To the music in his mind  
Insanity they say  
But to him it's all a sunny day, sunny day, sunny day  
Oh to him it's all a sunny day, a sunny day

There is no wonder  
It feels like Havana  
It's hot like the summer  
Drink cool like December  
Singing till the night turn day  
I am the martyr  
I wanna go under  
Go under the water  
Into my nirvana  
And now I see you coming my way

Baby, let me show you where we're going  
'Cause we're going to the floor  
Take you on a ride into the sky  
Where we can dive into the flow  
Baby, let me show you where we're going  
'Cause we're going to the floor  
Take you on a ride into the sky  
Where we can dive into the flow
