

Open Wave Of Life

Cody Simpson

One two
One two three four

She want, yeah she want
She wanna go to the seaside
She wanna go to the seaside
Got the sunlight in her mind
She hears, yeah she hears
Yeah yeah she hears
She hear the voices around her
Finally freedom has found her
Sunlight in her mind

She could really see it clear
Finally she made it here

She let me inside of her vision
She ain't like many other women
She said, "Baby, let's go swimming"
She don't wear nothing but the sky on her skin, yeah
I can feel the old one fading
Life has got a new vibration
Life is like an open wave
And even if you wave, it's gonna be breaking

We can really see it clear
Finally we made it here

Seeing you with my eyes
I got the time for that
We got love on the rise
I gotta give you that
It's a real cool disguise
And we can tear it back

She want, yeah she want
She wanna go to the seaside
She wanna go to the seaside
In the open wave of life
She knows, yeah she knows
Yeah yeah she knows
She know where at party at
Somebody once me that
She know where the party at

Alright now
Oh yeah
Come on

We can really see it clear
Finally we made it here

Hold tight and call you mine
I do this all the time
In the open sky at night
See the summer on the rise
We wear our best disguise

In the open wave of life

Some days we try

Some days we fly

But we're far too shy for this to happen tonight

Look at us fools

We'll feel so cool

Look at us fools in the open wave of life

Hold tight and call you mine

I do this all the time

In the open sky at night
