

# Temple

Cody Simpson

I am undone  
Under the sun  
You are the one  
Under the sun

Sunken islands immersed in water  
Teach your gentle ways  
Electric eyes deliver me from  
Drowning in my cave

You are my temple  
You are my temple  
Shelter from the sun  
High above the clouds  
I put down my gun  
I'm on the surface now  
You are my temple

Where could we be  
Under the sea  
The sovereign's key  
Is under the sea

Sunken islands immersed in water  
Teach me what to do  
I miss air from the safe harbor  
But I come back for you

You are my temple  
You are my temple  
Shelter from the sun  
High above the clouds  
I put down my gun  
I'm on the surface now  
You are my temple

My temple  
Oh you are my temple  
Come on, say it loud  
You are  
You are my temple  
Yeah, you are  
Say it loud  
Come on
