

# Going Down Easy

Coffey Anderson

It's five o'clock on the dot  
Gonna find a little spot  
Palm trees, flip flops, margaritas on the rocks  
With a shot  
It's going down easy

Salty rim, sandy toes, Ray Bans, Coppertone  
Waves crash, tide rolls  
Summer sun sinking low  
Nice and slow  
It's going down easy

I'm gonna take all my worries and throw them in the ocean  
I ain't in a hurry and too busy floating  
There ain't much left to the day or the drink I'm drinking  
Got them both and they're going down easy

Happy hour, whiskey sour, country music getting louder  
Boys of summer, rum runners  
What the hell let's have another  
Keep them coming  
It's going down easy

I'm gonna take all my worries and throw them in the ocean  
I ain't in a hurry and too busy floating  
There ain't much left to the day or the drink I'm drinking  
Got them both and they're going down easy

Here's to you and here's to me  
Raise them up cause it's about to be  
Going down easy

I'm gonna take all my worries and throw them in the ocean  
I ain't in a hurry and too busy floating  
There ain't much left to the day or the drink I'm drinking  
Got them both and they're going down easy

The sun and the rum  
The sun and the rum  
The sun and the rum  
Are going down easy  
The sun and the rum  
The sun and the rum  
The sun and the rum  
Are going down easy  
The sun and the rum  
The sun and the rum  
The sun and the rum  
Are going down easy  
The sun and the rum  
The sun and the rum  
The sun and the rum  
Are going down easy
