

## If You Happen To See Her

Coffey Anderson

If you happen to see her  
Tell her that she stole my heart  
Tell her that I fall apart  
When she's not around

If you happen to see her  
Tell her that I miss her style  
Tell her that she drove me wild  
She's an angel on the ground

Hold her close  
A good woman is hard to find  
When she's gone, she's gone  
You can't change her mind  
But you'll pray for the way things were  
If you happen to see her

If you happen to see her  
Tell her that I'll try again  
Tell her that I'll let her win  
She was right all along

Hold her close  
A good woman is hard to find  
When she's gone, she's gone  
You can't change her mind  
But you'll pray for the way things were  
If you happen to see her

Learn from me  
Danger ahead, keep away  
Gotta hold her, love her  
Listen to what I say

If you happen to see her  
Tell her that I miss her style  
Tell her that she drove me wild  
She's an angel on the ground
