

## Doors

Cog

In time I will change.  
I'm waiting around the door,  
trapped in a replay of yesterday.  
You, you aren't around at all.  
Feels like it's sending me out of my mind.  
I'm waiting around the door,  
waiting for something more,  
trapped in replay of yesterday.  
You, you aren't around at all.  
Shot down, no warning.  
Stuttering, get it out, try to say something.  
Sending me out of my mind.  
Stuttering, get it out, try to say something.  
Sending me out of my mind.  
Shot down, no warning. Over again and again,  
it's just sending me out of my mind.  
In time I will change.
