It Walks Among Us

Coheed and Cambria

A stale side double feature, so bad I couldn't eat ya
Creature, come and get it, Creature, come and get it
Creature's coming
Hyperdrive Mona Lisa, I wouldn't wanna be ya
Creature, come and get it, Creature, come and get it

Your bright ideas always burn me, oh, you should
Come on and walk among us, come on and walk among us
Bad girls, walk among us, come on and walk among us

Oh, honey, there goes your bastard
Oh, honey, there goes your bastard

And all I know is if you want it all, my dear
If you want it all my dear, go out and get it
And all I know is if you want it all, my dear
If you want it all my dear, go out and get it

A bad guy, motherfucker, don't want to hate or love you
Creature, come and get it, Creature come and get it
Creature's coming
Infected, don't provoke 'em, feel free to cock and load 'em
Creature, come and get it, Creature, come and get it

Bright lights here don't concern me
Come on and walk among us, come on and walk among us
Bad girls, bad, walking, walking, walking

And all I know is if you want it all, my dear
If you want it all my dear, go out and get it
And all I know is if you want it all, my dear
If you want it all my dear, go out and get it

Can you imagine all I want?
The time we had and all we lost
To be able to share that again
These automatic feelings, I feel your impression, I feel as they return
Oh, the darkness has its beauty, a vision blindly bothered to pay you no con
cern
Oh, the beast within me, it raged before, but I feel its fell in last
One down, two to go, I fear this stranger will not take me back

Oh, honey, there goes your bastard
Oh, honey, there goes your bastard

(Creature, come and get it, Creature come and get it)

And all I know is if you want it all, my dear
If you want it all my dear, go out and get it
And all I know is if you want it all, my dear
If you want it all my dear, go out and get it

And all I know is if you want it all, my dear
If you want it all my dear, go out and get it
And all I know is if you want it all, my dear
If you want it all my dear, go out and get it
