

Love Murder One

Coheed and Cambria

If you see me bleeding, leave me alone
Don't want you in my world throwing stones
This glass house isn't yours to call home
So we're done... game's over
Love murder one

Have we come to an understanding
Let's agree to disagree
Circumventing resolutions
And all they seem to lack
Yet keep us coming back

Oh, when I drink from your cauldron
I see through your witching eyes
The more it reveals that we're broken
In a love not meant to last it only lives to die

If you see me bleeding, leave me alone
Don't want you in my world throwing stones
This glass house isn't yours to call home
So we're done... game's over
Love murder one

I'll confess what your heart is feeling
In a Hallmark card of your fears
Tonight, you'll make your toast
Oh, to better days when all had seemed so right

I hear your heartbeat thumping
Screaming, "Honey, don't let me go"
I know you're up to something
I know you want to stay but I'm already gone

If you see me bleeding, leave me alone
Don't want you in my world throwing stones
This glass house isn't yours to call home
So we're done... game's over
Love murder one

If you see me, believe me, it's killing me slow
Don't care to live in this world anymore
Lights out, how do you call this fun?
Oh, we're done, game's over
Love murder one

I don't know how to tell you we're done
I don't know how to tell you it's over
But things have got to change
You must believe it
Oh, are you blind, do you, do you not see it?

If you see me bleeding, leave me alone
Don't want you in my world throwing stones
This glass house isn't yours to call home
Oh, we're done... the game's over
Love murder one

If you see me, believe me, it's killing me slow
Don't want to live in this world anymore
Lights out, how do you call this fun?
Oh, we're done, game's over
Love murder one

Game's over
Love murder one
