

## Our Love

Coheed and Cambria

Our love won't surrender to the odds up against us, no  
But there's something about this I know we can't miss  
Let's take a chance on forever

I'm reliving all those days you loved so well  
Totally open, I became the one you fell  
For worse or better, I would never dishonor  
Give you all the ammo that you want, you deserve so

I'll be better once the arrow hits heart  
Give you the wedding that you want  
You are so out of my league  
Out of my league  
Oh, I'll be your guide when you wanna get lost  
I'll be the sword at your side at all cost

Our love won't surrender to the odds up against us, no  
But there's something about this, I know we can't miss  
Let's take a chance on forever

Our love won't surrender to the odds up against us, no  
But there's something about this, I know we can't miss  
Let's do this now or we'll never
