

## Feel Inside

Coi Leray

I'm not feeling right, what I feel inside  
Feel I'm bout to lose my mind, just smoke and take flight  
They try to stop my goals, yeah nobody knows  
This shit done made me cold, now all my friends are ghost  
I'm not feeling right, what I feel inside  
Feel I'm bout to lose my mind, just smoke and take flight  
They try to stop my goals, yeah nobody knows  
This shit done made me cold, now all my friends are ghost

All my friends are gone I'm by my lonely  
Sometimes you take a loss that's what mom told me  
It pay to be the boss everything cozy  
Say you gon be loyal should've shown me  
Yeah I used to wil' out that was the old me  
And now I stay sucker free and I stay lowkey  
That's what you supposed to do, they talkin' down on you  
They never proud of you, that's why you gotta move

I'm not feeling right, what I feel inside  
Feel I'm bout to lose my mind, just smoke and take flight  
They try to stop my goals, yeah nobody knows  
This shit done made me cold, now all my friends are ghost  
I'm not feeling right, what I feel inside  
I'm bout to lose my mind, just smoke and take flight  
They try to stop my goals, yeah nobody knows  
This shit done made me cold, now all my friends are ghost
