

Keep It

Coi Leray

All those times, I caught you cheating
I should've killed you, but, now, you're gon' have to see this
Suppose to be my peace, but broke me right into pieces
You told me you loved me, but you ain't mean it
I done lost it
How the fuck could I believe this nigga?
Ripped my heart up out my chest and left me bleeding

If this is what love is, then you can keep it
If this is what love is, then you can keep it
Keep it

Not sure how much my heart is left
Tried to use you to fill the void that my father left
I'm not hard-to-get, baby
I'm just hard to get
I see one "red flag", and I just call it quits

My heart turn cold, nigga
You the cause of it
Should've kept it real, but you was fraudulent
Everything you said, you just did the opposite
Every time you come around, you're on that toxic shit
And I'm tired of it

All those times, I caught you cheating
I should've killed you, but, now, you're gon' have to see this
Suppose to be my peace, but broke me right into pieces
You told me you loved me, but you ain't mean it
I done lost it
How the fuck could I believe this nigga?
Ripped my heart up out my chest and left me bleeding

If this is what love is, then you can keep it
If this is what love is, then you can keep it
Keep it

Ooh, baby
Who said that broken hearts can never heal?
How you feel?
I said, "Ooh"
Why, why, why, why, why, why, why, why
All I ask was for loyalty
Keep an open mind and your eyes on me
Put in overtime, didn't change a thing
'Cause we're so far apart, when you next to me
You just want some pussy therapy
You went from her to her for a remedy
Said, I was your home. You still for the streets
Now, you're all alone. Thought I'd never leave

All those times, I caught you cheating
I should've killed you, but, now, you're gon' have to see this
Suppose to be my peace, but broke me right into pieces
You told me you loved me, but you ain't mean it
I done lost it
How the fuck could I believe this nigga?

Ripped my heart up out my chest and left me bleeding

If this is what love is, then you can keep it

If this is what love is, then you can keep it

Keep it
