

We Time

Coi Leray

I can't wait 'til we get home
Can't keep my composure
Throw me on the sofa
Got something to show you, come on (uh, uh)
Tell me what's the hold up
Pop it like a toaster
I probably sleep over
Come on
I need we time, take your sweet time
You and me time, show me that you mine
I need we time, take your sweet time
You and me time, show you what it's like
Come on

Baby, this your song
Don't know why you turnt up on that casa' all alone
Don't get too attached, I sent attachments to your phone
Show up, tell 'em, tell 'em if I show you what I'm on
On, on, on, on, on
It's about to go down
Come and get it all up
Up, up, up, up, up

I need we time, take your sweet time
You and me time, show me that you mine
I need we time, take your sweet time
You and me time, show you what it's like
I can't wait 'til we get home
Can't keep my composure
Throw me on the sofa
Got something to show you, come on (uh, uh)
Tell me what's the hold up
Pop it like a toaster
I probably sleep over
Come on

Sipping on that yeah
I am aware
Most these bitches can't compare
They want me to come play fair
I am not fair, on they mind like I'm combing their hair
We fucked right after the date
He want me to stay
I tell him, I be back in a week
He said damn, girl you a freak
Ask ya nigga, I bet ya nigga know me
He slid in it like a DVD
I'm in CV, he watching me like BET
Licking me down, on my knees, under the sheet
He diving right under my sea
Holding my waist while I ride it
Feeling nostalgic, you know that my body is calling
Go ahead and shoot for the stars
Love how you are, with you it's never a problem at all

I need we time, take your sweet time
You and me time, show me that you mine

I need we time, take your sweet time
You and me time, show you what it's like
I can't wait 'til we get home
Can't keep my composure
Throw me on the sofa
Got something to show you, come on (uh, uh)
Tell me whats the hold up
Pop it like a toaster
I probably sleep over
Come on
