

## Different Moons

Coin

Far away but I still love you  
I care to see you holding on  
But I don't know if it's right for us  
To keep these two hearts  
Glued together

I'm giving it time  
I'm giving it time to settle  
I'm living the life  
Not sure if it's worse or better

So I'll try I'll try  
To break your heart  
In the nick of time  
I'll forge I'll fight  
But I fall short every time  
I do  
With your eyes out the window  
When your head hits the pillow  
Who's on your mind  
Right at that time  
Am I even in the game  
Is it anybody's race  
When your head hits the pillow

Far away but I still love you  
I care to see you holding on  
But I don't know if it's right for us  
To keep these two hearts  
Glued together  
I don't wanna fall asleep  
If you can't wake up next to me  
I don't know if it's right for us  
To keep these two hearts  
Glued together

I'm giving it time  
I'm giving it time to settle  
I'm living the life  
Not sure if it's worse or better

I wanna make it work  
I wanna make it work
