

## How It Feels

Coin

No one's brother  
No one's son  
I don't know what I've become  
Red safety world  
Everyone's own  
I wanna be a confetti gun  
Do you know how it feels?

To be me  
Young and dumb  
To be all alone  
Twenty-one  
To be all around the sun  
They say it's all been done  
You don't know how it feels

Meet me halfway down  
In the street at dark  
Bite your tongue  
While my heart drops  
Rosalio park  
Six feet apart  
I'm trying to love you  
You don't know how it feels

Like your blood  
I only run  
To parties  
If no one will come  
Spoiler alert  
The seasons done  
What a mess  
You don't know how it feels

To be  
Young and dumb  
To be all alone  
Twenty-one  
To be all around the sun  
They say it's all been done  
You don't know how it feels

Meet me halfway down  
In the street at dark  
Bite your tongue  
While my heart drops  
Rosalio Park  
Six feet apart  
I'm trying to love you  
You don't know how it feels  
You don't know how it feels

How do you break my heart  
Six feet apart  
I'm trying to love you  
You don't know how it feels

You don't know how it feels  
You don't know how it feels  
You don't know how it feels  
You don't know how it feels
