

I Feel Alive?

Coin

Everybody hurts like me and you
Everybody's got something we don't do
And of course it comes at the worst time
And of course it comes on a bad night
But everybody hurts like me and you

I feel alive
And it's okay
Yeah we're okay
When the lights go out
And your blood is pumping
There's a power to be found
I feel alive
I feel alive

I've seen different colors bleed the same blood
And ever different lover need the same love
Like "honey, please don't go, no!"
Or just one more hallelujah
Everybody works like me and you

I feel alive
And it's okay
Yeah we're okay
When the lights go out
And your blood is pumping
There's a power to be found

I feel alive
And it's okay
Yeah we're okay
I feel alive
And your blood is pumping
There's a power to be found

Far and wide
Sunset fear
Morning comes
And never looked so clear

I feel alive
And it's okay
Yeah we're okay
I feel alive

I feel alive
I feel alive
