

# Never Change

Coin

You're across the room  
But we're miles apart  
So I talked to God  
And asked him how you are  
Reached for your hand  
Ask you to dance  
I wanna pull you closer  
Head on my shoulders

Why am I lonely when I'm sleeping right here next to you?  
Right next to you?

I keep running, chasing after your heart  
I can't live this way, but I can't live without ya  
I keep running, chasing after your heart  
I'm begging for a change, I can't live this way  
I can't live this way, but I can't live without ya

You're across the room  
But we're miles apart  
So I talked to God  
And asked him how you are  
Someone calls your name  
But it's not my voice  
Scrolling through your messages, waiting  
For someone to pay you attention

Why am I lonely when I'm sleeping right here next to you?  
Right next to you?

I keep running, chasing after your heart  
I can't live this way, but I can't live without ya  
I keep running, chasing after your heart  
I'm begging for a change, I can't live this way  
I can't live this way, but I can't live without ya

(You don't have to change)  
(You don't have to change)  
I can't vision myself  
(You don't have to change)  
Holding you, holding love  
(Well, you don't have to change)  
I can't vision myself  
(No, you don't have to change)  
Holding you, holding love  
(Yeah, you don't have to change)  
I can't vision myself  
(Yeah, you don't have to change)  
Holding you, holding love  
(Yeah, you don't have to change)  
Holding you

I keep running, chasing after your heart  
I can't live this way, but I can't live without ya  
I keep running, chasing after your heart  
(You don't have to change)  
I can't live this way, I can't live this way

I can't live this way, but I can't live without ya
