

# Oh No

Coin

All you want to do is break my heart  
But I will never let you try so hard  
In for the killing you've set your mind  
We'll never settle nothing until your weapons down

Close to the edge  
I can feel it now  
The only way out  
Is the only way down  
I fell so hard  
I was looking for you  
Oh you could've stopped me  
But you liked the view

I looked for your heart  
I couldn't find you nowhere  
I should've known from the start  
You were nothing but trouble  
Oh, no  
You're pulling me right back in  
Don't lie to me  
Don't break my heart again  
So let me know  
If you love me or you don't  
Cause either way  
You're the truth I want

You took your sweet time  
And played your games  
Round and round  
And back again  
Twisted until you take it  
And you turn it around  
Burn it until you break it  
Let go of my arm

I looked for your heart  
I couldn't find you nowhere  
I should've known from the start  
You were nothing but trouble  
Oh, no  
You're pulling me right back in  
Don't lie to me  
Don't break my heart again  
So let me know  
If you love me or you don't  
Cause either way  
You're the truth I want

I looked for your heart  
I couldn't find you nowhere  
I should've known from the start  
You were nothing but trouble  
Oh, no  
You're pulling me right back in  
Don't lie to me  
Don't break my heart again

So let me know  
If you love me or you don't  
Cause either way  
You're the truth I want

All these times we'd bicker and fight  
But have never made much terms  
But here we are again  
All these times we'd bicker and fight  
But have never made much terms  
But here we are again  
And again and again and again  
All these times we'd bicker and fight  
But have never made much terms  
But here we are again

Here we are again  
Here we are again

Oh, no  
You're pulling me right back in  
Don't lie to me  
Don't break my heart again
