

Pick It Up

Coin

Slow it on down
Bring it all back to me
Make you my love
It'll keep you company
Pick it up

Never, never, never, never seen a mouth like yours
Never, never seen a face like that I'm sure

Send it on down, send it on down to me
Send it on down, send it on down to me
I'm on to you
You're on to me too

Spill my drink cause I'm nervous when I'm talking to you
Start to stutter and I wonder if I have an excuse
And in my head I'm thinking

I'm on to you
You're on to me too

I'm on to you
You're on to me too
