

# Blaze

Colbie Caillat

We're boarding the night train  
We're bored sunlight  
We want moon rays and nitrate  
We want silver and fire  
Cause every day that we spend overthinking  
Makes me wanna spend the night over drinking  
If insane's the new sane  
Then you're lost and gone wild

If the cops are all coming  
We stay and not running  
We'll be raging like crazy  
Fly with me baby  
Like we've only got tonight  
It's gonna be the best night of our lives  
If we're gonna go down in flames  
Let's go out in a blaze  
Go out in a blaze  
Go out in a blaze

We're dancing on tables  
We're kicking off shoes  
We're sick of the same ol'  
So we're singing like fools  
Cut the Camus and the Jameson in the blue dream  
Flipping cups, drifting up to the ceiling  
You were breaking those tables  
And we're bending those rules

If the cops are all coming  
We stay and not running  
We'll be raging like crazy  
Fly with me baby  
Like we've only got tonight  
It's gonna be the best night of our lives  
If we're gonna go down in flames  
Let's go out in a blaze  
Go out in a blaze  
Go out in a blaze

Every night, every day  
We light the sky  
Up in a blaze  
Shine like the stars  
Burn like a flame  
No we're never going out

Every night, every day  
We light the sky  
Up in a blaze  
Shine like the stars  
Burn like a flame  
No we're never going out

If the cops are all coming  
We stay and not running  
We'll be raging like crazy

Fly with me baby  
Like we've only got tonight  
It's gonna be the best night of our lives  
If we're gonna go down in flames  
Let's go out in a blaze  
Go out in a blaze  
Go out in a blaze  
Go out in a blaze  
Go out in a blaze
