Live Without

Colbie Caillat

[Intro: Colbie Caillat]
Live without, I can live without you
Live without, I can live without you

[Verse 1: Colbie Caillat]
Scared to death to watch you leave
Felt like hours I didn't breathe
Laid awake all night
Can't believe all the tears I've cried
You were all I ever knew to need

[Pre-Chorus: Colbie Caillat & Maddie & Tae]
You said I was a desert, I let you be the rain
Let you be the blood running through my veins
Time's got a way with doing what it does
Goodbye ain't the bullet that I thought it was

[Chorus: Colbie Caillat & Maddie & Tae]
Thought it would kill me, thought I was done
If any love could take me down, I thought you'd be the one
My heart's still beating, the world still turns around
And it turns out, you're something that I can live without

[Verse 2: Maddie & Tae]
Oh, thank God I was wrong
With my eyes open, you looked different gone
Left me in the dark, but the sun came and did its part
That silver lining showed up and shined a light on who you are

[Chorus: Colbie Caillat & Maddie & Tae]
Thought it would kill me (Thought it would), thought I was done
If any love could take me down, I thought you'd be the one
My heart's still beating, the world still turns around
And it turns out, you're something that I can live without
Live without

[Bridge: Colbie Caillat & Maddie & Tae]
You said I was the desert, I let you be the rain
Let you be the blood running through my veins
Time's got a way of doing what it does
Goodbye ain't the bullet that I thought it was

[Chorus: Colbie Caillat & Maddie & Tae]
Thought it would kill me (Kill me), thought I was done (I was done)
If any love could take me down (Take me down), I thought you'd be the one
My heart's still beating (My heart's still beating), the world still turns a
round
And it turns out, you're something that I can live without
(Live without, I can live without you)
Live without, mmm
(Live without, I can live without you)
(Live without, I can live without you)
