

# Pretend

Colbie Caillat

Let's pretend we never broke up  
Pretend we didn't do it all wrong  
Let's act as if we didn't quit  
And when it got hard, we held on  
Let's pretend you gave it your all  
Pretend I didn't need more  
And that we're still sittin' in that countryside kitchen  
Red dog sleepin' on the floor

Guess I still got some feelings  
Honey, do you feel like dreamin'?

Of that first summer night in the back of your truck  
Kissin' in the moonlight, stars above  
Dancin' in a field with the radio on  
The moment we found our favorite song  
Burnin' like a fire that would never go out  
Heartache wasn't somethin' we were thinkin' about  
That forever kinda feeling that we found back then  
It was love, it wasn't pretend

Let's pretend you opened up  
Pretend I didn't shut down  
'Cause I can't pretend that it don't hurt  
And that I don't miss you now

And that first summer night in the back of your truck  
Kissin' in the moonlight, stars above  
Dancin' in a field with the radio on  
The moment we found our favorite song  
Burnin' like a fire that would never go out  
Heartache wasn't somethin' we were thinkin' about  
That forever kinda feeling that we found back then  
It was love, it wasn't pretend

(Ooh)  
Ooh, yeah  
(Ooh)

Do you feel like playin' along?  
Like goin' back before you were gone

To that first summer night in the back of your truck  
Kissin' in the moonlight, stars above  
Dancin' in a field with the radio on  
The moment we found our favorite song  
Burnin' like a fire that would never go out  
Heartache wasn't somethin' we were thinkin' about  
That forever kinda feeling that we found back then  
It was love, it wasn't pretend

Oh, oh  
It was love

It was love, it was love back then  
It was love, it was love back then  
It was love, it was love back then

It was love  
It was love, it was love back then  
It was love, it was love back then  
It was love, it was love back then  
It was love
