

# Somethin' Special

Colbie Caillat

I found a way to be everything I dreamed of  
And I know it's in me that I will become  
Who I want to be

And if I never found it  
And I'm taking the long way out  
Cause it's gonna be somethin' special to me  
Somethin' special to me

Days go by and I'll grow stronger  
It takes time but I'll never let go  
Days go by and I'll try harder  
To make it mine

It's somethin' special to me  
Somethin' special to me  
It's somethin' special to me, yeah

I found so many things I dreamed of  
And I know it's in me that I will become  
Who I want to be

And if I never found it  
And I'm taking the long way out  
It's gonna be somethin' special to me  
Somethin' special to me

Days go by and I'll grow stronger  
It takes time but I'll never let go  
Days go by and I'll try harder  
To make it mine

It's somethin' special to me  
More than I hoped for  
More than I dreamed of  
This is how it should be

More than I hoped for  
More than I dreamed of  
This is how it should be

Days go by and I'll grow stronger  
It takes time but I'll never let go  
Days go by and I'll try harder  
To make it mine

It's somethin' special to me  
(Days go by and I will try)  
It's somethin' special to me  
It's somethin' special to me  
(But never let go)  
It's somethin' special to me

(Days go by and I will try)  
It's somethin' special to me  
It's somethin' special to me  
(But never let go)

It's somethin' special to me

(Days go by and I will try)

(But never let go)

It's somethin' special to me
