

Better Days

Colby Acuff

What if today was our last day
Would we be proud of what we've done
Well-spent trips around the sun
Cause, I feel the shame
For who's to blame
Oh Lord, what will it take
Are we getting further from better days

What if we stopped greed from infectiously spreading
Like a cancer in our souls
A disease of wanting more
Subdued by a pill
Damn, that's depressing
Doc says that I'm okay
Are we getting further from better days

Is anybody breathing, yeah
Do you feel insane like it's just never changed
Are we getting further from better days

What if people were kind and never grew jaded
Would it be a happy place would it matter anyway
Maybe mercy and love
Are just too overplayed
Are we getting further from better days

Is anybody breathing, yeah
Do you feel insane
Like it's just never changed
Are we getting further from better days

Well, we're dying to dream while alive in a nightmare
But were damned if we don't
So, damn it if we won't
Cause, I need some hope on the nights where
I can feel my heart break
Are we getting further from better days

Is anybody breathing, yeah
Do you feel insane
Like it's just never changed
Are we getting further from better days

Do you feel insane
Like it's just never really changed
Are we getting further from better days
