

## Confidence

Colby O'Donis

Shorty says she grown, she got confidence  
Ride it on her own, she got options  
When we get alone she likes to pop shit  
Fuckin' with a dude, he too counterfeit  
Tryna please, back it all night  
I'll give you the money for the time spent  
When I'm in my lonely, who's my confidence?  
We that do the lonely need more confidence

Girl don't let him hold you down  
'Cause you came from the bottom  
And we don't live for tomorrow  
You could kiss me with your eyes closed  
It's easier when you really fuckin' mean it  
Don't it make you wanna show off?  
Show me love 'til the last call

Shorty says she grown, she got confidence  
Ride it on her own, she got options  
When we get alone she likes to pop shit  
Fuckin' with a dude, he too counterfeit  
Tryna please, back it all night  
I'll give you the money for the time spent  
When I'm in my lonely, who's my confidence?  
We that do the lonely need more confidence

Ooh, we are not the same now  
We are too afraid now  
Ooh, you know what it takes now  
You don't wanna fade now  
Yeah, ooh, we are on the way now  
Make me wanna take it down  
Yeah, ooh, 'cause she wanna face now  
I am on my way now

Shorty says she grown, she got confidence  
Ride it on her own, she got options  
When we get alone she likes to pop shit  
Fuckin' with a dude, he too counterfeit  
Tryna please, back it all night  
I'll give you the money for the time spent  
When I'm in my lonely, who's my confidence?  
We that do the lonely need more confidence
