

Gravity (In Love With You)

Colby O'Donis

Now I've seen too many wannabe players
turn around and get played cuz they be underestimating females now a
days.

So I'm staying on my toes
I never get to comfortable but
when I run into you I just seem to lose control, ohh

Didn't mean I get so caught up
Now I'm calling you constantly
I can feel the attraction attracting me to ya
And I'm so caught up no no don't you ever leave
Just stay with me, just stay with me

Finally gravity pulled us closer
I feel like somebody just knocked me over
and I'm falling I'm falling so in love
with you, with you, with you

Now I thought it only worked on suckers
Can nobody fit the game on me?
But I'm chasing after ya see you found a symphony
Cuz i feel so deep in love
tryin' be where you are
And I just lose control, ohh

Didn't mean to I get so caught up
Now I'm calling you constantly
I can feel the attraction attracting me to ya
And I'm so caught up no no don't you ever leave
Just stay with me, just stay with me

Finally gravity pulled us closer
I feel like somebody knocked me over
and I'm falling I'm falling so in love
with you, with you

Finally gravity pulled us closer
I feel like somebody just knocked me over
and I'm falling I'm falling so in love
with you, with you, yeah, yeah

Finally gravity pulled us closer
I feel like somebody just knocked me over
and I'm falling I'm falling so in love
with you, with you, with you.
