

Notion For You

Cold Chisel

Anywhere or time I think about her
Especially when I'm on my own and when I'm lonely
It doesn't matter where I be, she follows me
And with my friends words, stuck in conversation
Sitting down I feed the revelation
I can't hear the words
I'm lost in my mind
I can't stay

She was a secretary
I'd love to sit her on my knee
I got this notion
I got this notion for you

You are the one I dream of
And no one else comes nearer
You are the one I dream of
You never met me but I don't care

Anytime or when I think about her
Especially when I'm on my own
It doesn't matter where I be, she follows me

She was a secretary
I'd love to sit her on my knee
I got this notion for you

Anytime, time I think about her
Especially when I'm on my own and feeling lonely
It doesn't where I be, she follows me
With my friends, words stuck in conversation
A sitting down the local, feed the revelation
I can't hear the words
I'm lost in mind
I start to say

She was a secretary
I'd love to sit her on my knee
I got this notion
I got this notion for you
She was the secretary
I'd love to sit her on my knee
I've got this notion for you
I've got this notion for you
