

# The Last Wave Of Summer

Cold Chisel

On the last wave of summer  
I lost my soul to you  
The last wave of summer  
I lost it all to you  
Every thing has a time  
This I know is true  
I could live forever  
This perfect day with you  
There's a cold winter comin'  
I can feel the change  
It's the last wave of summer  
We'll ever see again  
Lets ride...  
There's a cold winter coming  
Can you feel the change  
It's the last wave of summer  
We'll ever see again
