

Bittersweet Casualty

Cold Driven

You're too careless to see
All the bombs that you're dropping
It's like living in a mine field
Blow me away
And now I pray
I pray for you to change
I pray to get away
Now I pray to get away
Get away

We made a killer out of you and a hostage out of me
Another bittersweet casualty
We brought the devil out of you and a sinner out of me
It's not fair
Love is war

You're too careless to see
All the shock that you're causing
It's like walking on bomb shells
Blow me away

And I have faith
Faith you'll never change
Faith I'll get away
I have faith I'll get away
Get away

We made a killer out of you and a hostage out of me
Another bittersweet casualty
We brought the devil out of you and a sinner out of me
It's not fair
Love is war

Killer out of you and a hostage out of me
Another bittersweet casualty
We brought the devil out of you and a sinner out of me
It's not fair
Love is war

I can't live this way
Just like a hostage
Living like, praying like
I've got the feeling like
Living like, feeling like
Just like a hostage
Too scared to say anything
Just like a hostage
Cause you might bury me
You might bury me

We made a killer out of you and a hostage out of me
Another bittersweet casualty
We brought the devil out of you and a sinner out of me
It's not fair
Love is war

Killer out of you and a hostage out of me

Another bittersweet casualty
We brought the devil out of you and a sinner out of me
It's not fair
Love is war

I can't live this way
You might bury me
Love is war
