

Sweet Lies

Cold Driven

I'm not who your thinking
You must be mistaken
Sweet things were made
Just in my size
Daddy's little girl's went all wrong
She's got secrets and they're so selfish
Classic case of the silver screen beauty
With a tragedy
Bad luck comes in killing sprees
Lately more unlucky threes
It's not that she's shaken
The whole world is moving because

(She has)
Sweet leaf
(She wants)
Sweet life
(She needs)
Sweet lies

Daddy's girl's found her art is beauty
With elegance comes robbery
Smoke rings little flings
All the while there goes everything (oh)
Lady luck comes in killing sprees
Lately she's been quite the tease
It's not that she's shaken
The whole world is moving because

(She has)
Sweet leaf
(She wants)
Sweet life
(She needs)
Sweet lies

Her innocence plays people well
Her crying eyes were made to sell
(Made to sell)
Cause her story is so heartfelt

If you beg and you plead
For more than the high times
If you want and you need
More than the high life
Than you've been and you've seen
The edge of the high rise

(She has)
Sweet leaf
(She wants)
Sweet life
(She needs)
Sweet lies

I'm not who your thinking you must be mistaken
Sweet things were made just in my size
