

Worthy Among Worthles

Cold Driven

Standing at the crossroads between a life
And the needles end
And there's no turning back once it's in

It's down to dirty needles again
And now you're chasing heroin dreams
And you can't stop the cravings
It's always one hit more
And it's become too hard to ignore
You're fighting the sickness war
You're back to burn back black spoons again

Are you worthy among the worthless
When you're living on a need
This place is full of runaways
Just chasing heroin dreams

Do you sneak out just to reach out
To the ones who fill the need
On a train wreck full of diaries
About chasing heroin dreams
And you can't stop the cravings
It's always one hit more
And it's become too hard to ignore
You're fighting the sickness war
You're back to burn back black spoons again

Are you worthy among the worthless
When you're living on a need
This place is full of runaways
Just chasing heroin dreams

This place is full of runaways

There's a symphony when you're listening
To the ones who are on the streets

There's a symphony when you're listening
To the ones who are on the streets

Are you worthy among the worthless
When you're living on a need
This place is full of runaways
Just chasing after
Chasing heroin dreams
There's a symphony when your
Listening to the ones who are on the streets

This place is full of runaways
Just chasing heroin dreams
