

# Worthy Among Worthless

Cold Driven

Standing at the crossroads between a life  
And the needles end  
And there's no turning back once it's in  
It's down to dirty needles again  
And now you're chasing heroin dreams  
And you can't stop the cravings  
It's always one hit more  
And it's become too hard to ignore  
You're fighting the sickness war  
You're back to burn back black spoons again

Are you worthy among the worthless  
When you're living on a need  
This place is full of runaways  
Just chasing heroin dreams

Do you sneak out just to reach out  
To the ones who fill the need  
On a train wreck full of diaries  
About chasing heroin dreams  
And you can't stop the cravings  
It's always one hit more  
And it's become too hard to ignore  
You're fighting the sickness war  
You're back to burn back black spoons again

Are you worthy among the worthless  
When you're living on a need  
This place is full of runaways  
Just chasing heroin dreams

This place is full of runaways

There's a symphony when you're listening  
To the ones who are on the streets

There's a symphony when you're listening  
To the ones who are on the streets

Are you worthy among the worthless  
When you're living on a need  
This place is full of runaways  
Just chasing after  
Chasing heroin dreams  
There's a symphony when your  
Listening to the ones who are on the streets

This place is full of runaways  
Just chasing heroin dreams
