## Avalanche in B

## **Cold War Kids**

Oh, avalanche in apartment B
Everywhere white's what I see
I've never lived alone
So near the ocean breeze
I can finally afford high anxiety

Reach up, cold air hits your hands Snow packs like cement you can't stand Remain calm while rescue makes plans

Oh, avalanche in aparment B
All at once the weight dropped on me
Sweating at the bar
Fifteen minutes ago
We we're yelling our heads off
Now I'm surrounded by snow

Reaching up, cold air hits your hands Snow packs like cement you can't stand Remain calm while rescue makes plans The earth must contract and expand
