Cold War Kids

Move at the speed of sound  
You can't go back again  
So buy another round  
You're gonna miss that final train

When lightning strikes  
Who wants to stay inside  
Promises you made you know  
That they're all gonna break

Your family will never understand  
They only care about  
You got a safe place you can land

You're sick of being nice  
It's not a sacrifice  
To run away decide  
You want to live that artist life

The way you glow  
Will fade I know  
I'm better off without

You won't get bored with me  
I won't get bored with you  
If you get bored with me then  
I'll be boring too

Don't want to patronize  
Don't want to cheat myself  
Don't want to win if it means  
I'm hurting someone else

I'm waiting for the answer to  
Still I don't know when you lie  
I'm hanging on  
I'm staying true  
Cause all I'm feeling is you

Obsession  
Obsession  
Don't ever leave me now
