

One Song at a Time

Cold War Kids

I am over too exposed
Easy target to dispose
Are you saying something?
Find an inch to pay a soul
Pressure for the catapult
Do not miss your moment!

One song at a time
One song at a time
One song at a time
One song at a time

Find a way to do what takes
Dynasty humiliates
Do your best impression
Claim to start up counterfeit
Not becoming your own name
Powers of persuasion

One song at a time
One song at a time
One song at a time
One song at a time

Shizzle spark, has he known?
Isn't that a dose of you?
Tell me what's the difference!
We need another narcissist
I could hold business here
Whatever makes you discern

One song at a time
One song at a time
One song at a time
One song at a time

Only I became
All the dream to entertain
How do I feel straight?
While my heart is under space?

One song at a time
One song at a time
One song at a time
One song at a time
